

Ceiling Plaster Frame

DACPF

- Plaster frame used to provide lay-in features in a plaster ceiling.
- Can be made to fit either our or other manufacturer's grilles
- Order DACPF 2+larger than our standard grille.
i.e. A 22x22+DA?? grille will fit into a 24x24+DACPF
- When using our DACPF with other manufacturer's grilles, order DACPF list size 1/4+to 5/16+larger than the outside dimension of the grille to be used with
- Cut opening in ceiling slightly larger than ordered size as this model is made to exact list size (it is not undersized).
- Sidewall screwholes for a concealed installation
- Countersunk screw holes can be requested in the face if required, (order as DACPF-A)
- Durable powdercoat White or Silver painted finish
